EDUCATION

B.Tech in Electrical and Electronics Engineering
Gaya College of Engineering, Gaya, Bihar

Higher Secondary Certificate (12th)
Holy Mission Secondary School, Patna, Bihar

Secondary School Certificate (10th)
DAV Public School, Patna, Bihar

KEY SKILLS

Technical Skills: Languages: JavaScript, SQL, Python | Django Rest Api | Web Development: HTML, CSS, React.js | Tools & Frameworks: Git, VS Code | Databases: mysql

LANGUAGES

English, Hindi

Results-driven web developer with hands-on experience in building scalable, responsive, and user-focused applications. Skilled in React.js, JavaScript, SQL, and REST-based backend integration. Passionate about writing clean code, improving performance, and delivering seamless user experiences. Continuously learning and applying modern technologies to solve real-world problems.

PROJECTS

Clinic Appointment Management System (React + Django)
- Designed and developed a responsive clinic appointment management application with a clean, user-friendly interface for smooth patient booking and appointment tracking.
- Implemented intuitive navigation and interactive appointment workflows, including status updates and search functionality, to improve overall user experience.
- Ensured efficient data handling and reliable frontend–backend communication while maintaining consistent performance across different devices.
- **Technologies**: React.js, Django, Django REST Framework, HTML, CSS, JavaScript

User Registration Form using React
- Built a React-based user registration form with real-time input validation and dynamic error handling.
- Used state management (useState) to handle form data efficiently and useEffect to track user input changes.
- Provided instant feedback with error messages and success indicators for an improved user experience.

Technologies: React.js, useState, useEffect.

CERTIFICATIONS

- Python Full Stack Development – Learn More Technology, Bangalore
